Note: This list should not be considered a comprehensive list of all of the mental health professionals available within the greater Atlanta area. Neither should it be construed as a list of providers recommended by the Fulton County Schools, but rather as a partial list of some of the licensed psychologists, psychiatrists, and pediatricians who treat children and adolescents within this area, along with their reported areas of specialty. Many schools have individual resources that include a list of tutors and agencies. Consult school personnel for details regarding these and other community resources in your school's vicinity.
